

STATEMENT FOR ROHS DIRECTIVE

28 June 2019

RoHS directive 2011/65/EU and their national transposition does not apply to pneumatically powered pumps and accessories manufactured by ARO-Ingersoll Rand.

This EU directive applies as defined by Article 1 only for electrical and electronic equipment (EEE) which are defined in article 3 as an equipment which is dependent on electric currents or electromagnetic fields in order to work properly and equipment for the generation, transfer and measurement of such currents and fields are designed for use with a voltage rating not exceeding 1 000 volts for alternating current and 1 500 volts for direct current;

For operation of such items, no electricity is needed. By consequence RoHS is not applicable.

Please contact our customer service team Fluid_Management_EMEA@irco.com if an individual statement is needed for any specific model number(s).
